ORDER NO.

SUBJECT:

DOCKET NO. 2018-320-E - Joint Application of Duke Energy Carolinas, LLC and Duke Energy Progress, LLC to Establish Green Source Advantage Programs and Riders GSA - Staff Presents for Commission Consideration Approval of the Joint Application of Duke Energy Carolinas, LLC and Duke Energy Progress, LLC to Establish Green Source Advantage Programs and Riders GSA, along with the Request for Approval of Revised Tariffs.

COMMISSION ACTION:

I move that the Joint Application of Duke Energy Carolinas, LLC and Duke Energy Progress, LLC to establish Green Source Advantage Programs and Riders GSA, as subsequently modified by stakeholder input, be approved. These Amended Green Source Advantage programs are consistent with and meet the voluntary renewable energy program requirements of Act 62. The Amended Green Source Advantage Programs enable participating customers to select the renewable energy facility and negotiate with a Renewable Supplier on the price to be paid by the participating customer for the energy, capacity and environmental attributes of the renewable energy facility. Green Source Advantage customers may also select a term for participating in the Amended programs up to 20 years. The Monthly Rate section of the GSA tariffs provides GSA customers the option to select an administratively-established avoided cost bill credit option fixed over two years, five years, ten years, or an hourly marginal avoided cost bill credit based on the Companies' real time marginal costs. I further move that this Commission issue a full written order to more fully explain in more detail the various components of these programs. In addition, I move that this Commission require Duke Energy Carolinas and Duke Energy Progress to file their revised Rider GSA tariffs within 15 days of the issuance of the full written Order using the Commission's E-Tariff filing system. The tariffs shall be consistent with the findings of the Order and with the Commission's Rules and Regulations. Finally, I move that within 30 days after the initial nine-month enrollment period ends for the Green Source Advantage programs, the Companies should update the Commission with regard to any remaining Program capacity, which should then be made available to all customers on a "first come, first served" basis.

So Move.
